Good news to our valued Customers

Following the promulgation of SI142 of 2019, the option to have the Export Credit Insurance Policy underwritten in foreign currency was removed. We are however pleased to inform you that following our application to the relevant authorities to have the option reinstated, we have been given the necessary approval.

Accordingly, our exporting clients can now elect to have their policy in foreign currency. ECGC will therefore insure your shipments in foreign currency with premiums being paid in the same currency. In the event of a loss, claims will be settled in foreign currency as well.

Please contact us if you need further information.

Yours faithfully

Sekai Chirume

Managing Director
